

PASSENGERS KILLED

EXTRA TRAIN ON THE NORTH SHORE RAILWAY JUMPS FROM THE TRACK.

SEVERAL REPORTED INJURED

SEVENTEEN PERSONS SAID TO HAVE BEEN HURT IN THE ACCIDENT.

San Francisco, June 22.—An extra train on the North Shore railway jumped the track one mile south of Point Reyes late Sunday afternoon. One coach turned over, Michael Kirk of San Francisco was killed. Supreme Court Justice Angellotti was hurt. Dr. Wickman of San Rafael and Conductor Burrows are among the injured.

Another name has been added to the list of the dead, that of A. Roman, founder of the Overland Monthly. Reports from the scene of the accident are very meagre. One report states that seventeen people were injured.

BATTLESHIP IN COLLISION.

The Massachusetts Strikes and Damages a Schooner.

Boston, June 22.—The battleship Massachusetts, which left here Saturday afternoon for New York, was in collision at night twenty-seven miles southeast by east of Boston lightship, with the schooner Martha T. Thomas of Thomaston, from Apalachicola, with lumber. Captain Watts of the Thomas says the battleship struck his schooner a glancing blow on the starboard side, tearing off the main chain plates, carrying away rails and damaging some planking about the hull, causing her to leak about two inches per hour. The captain says the weather was clear and he could see four miles away. His vessel, having a fair wind, kept a clear course, thinking the battleship, which was headed out the bay, would give her the clear way. Immediately after the collision the Massachusetts put about and followed the schooner into the bay in case she might need assistance. But on reaching the lightship, Captain Watts decided that it was unnecessary. The Massachusetts then put to sea.

SEVERE STORMS IN NEBRASKA.

Wind and Hail Wreck Buildings and Ruin Crops.

Lincoln, Neb., June 22.—Severe storms of wind and hail prevailed in Eastern and Central Nebraska Sunday evening. Near Hastings, small buildings were blown over and hail practically ruined growing crops for a strip of two miles wide and several miles long.

Hall between Milford and Beaver Crossing, for a distance of twelve miles, cut vegetation to the ground and smashed window lights. Near Ulysses, Melville Crawford, a farmer, was struck by lightning and killed. There was a heavy rain over nearly half of the state.

MANY LIVES LOST.

One Hundred and Fifty Persons Perish in a Burning Temple.

Victoria, B. C., June 22.—Advices from Shanghai tell of the burning of a temple at Ping Tu involving the loss of 150 lives. A large throng gathered to worship, and burned paper and incense by the wholesale. This resulted in the temple taking fire near the stairway, cutting off the escape of the people. Many jumped from windows and were killed, others were crushed to death by the crowds.

SIX MEN KILLED.

Lightning Strikes a Hut and Causes a Disastrous Explosion.

Seneca, O., June 22.—Lightning struck a hut stored with 3,000 pounds of dynamite at the new mines, now being opened near here, during a storm and caused an explosion that killed six men and injured a score of others, besides ruining the mine shaft and breaking nearly all the windows in Senecaville, half a mile from the mine.

Two Men Drowned.

Galveston, Tex., June 22.—J. C. Wells, a commercial traveler of New York City, and J. D. Proctor, a policeman of Houston, ventured out beyond the ropes while bathing in the surf and were drowned. Both bodies were recovered.

Costly Fire at Boise, Ida.

Boise, Ida., June 22.—Fire in the business section caused a loss of \$140,000. The principal losers are: Northrop Hardware Co., \$50,000; Armour & Co., \$15,000; John L. Day & Co., grocers, \$25,000.

Hail Ruins Orchards.

Sedalia, Mo., June 22.—A destructive hail storm prevailed in this vicinity in the afternoon. Stones of unusual size fell, being so large that they stripped orchards and ruined much corn.

MAJOR POND DEAD.

Noted Manager of Singers Succumbs to Effects of an Operation.

New York, June 22.—Major James A. Pond, the well known manager of

lecturers and singers, died Sunday at his home in Jersey City as the result of an operation on June 17, in which his right leg was amputated. Major Pond, who had been ill for a month, two weeks ago underwent a slight operation, but the wound failed to heal satisfactorily and it finally became necessary to remove the leg. It was announced at the time that the patient had withstood the shock well and that the surgeons were hopeful of his recovery. Major Pond was born at Cuba, N. Y., in 1838.

DESIRES AN ACCOUNTING.

Dr. A. A. Forbes of Duluth Claims His Brother Defrauded Him.

Duluth, June 22.—Proceedings of a sensational character, brought by one brother against another, will come up in the district court today, when an action instituted by Dr. A. A. Forbes against Robert Forbes and his wife, Emma E. Forbes, will be heard. The court has issued a writ of ne exeat against Robert Forbes and wife preventing them from leaving this jurisdiction.

Dr. A. A. Forbes claims that his brother has defrauded him out of between \$50,000 and \$60,000 worth of property in connection with the operation of the firm of Forbes Bros., promoters, mining experts and chemists, and he desires an accounting and a dissolution of the partnership. The vault in the office of Forbes Bros. is now in charge of the sheriff. This action was taken by Dr. Forbes, who says that he feared his brother might dispose of papers contained in the vault.

HANNA NOT A CANDIDATE.

Ohio Senator Says He Does Not Want to Be Vice President.

Cleveland, O., June 22.—In an interview Sunday, Senator M. A. Hanna reiterated his recent statement that he is not and would not be a candidate for the vice presidency and if his nomination was made he would decline to accept it. He said further that his ambition did not lie in the direction of the White House and that nothing could induce him to alter his decision in the matter.

Colonel Myron T. Herrick, whose name also has been mentioned in connection with the vice presidency, said that his sole political ambition was to be elected governor of Ohio. Colonel Herrick thinks that the whole discussion relative to the vice presidential nomination is inopportune.

THREATENED ROOSEVELT.

Ann Arbor Student Detained by Police of Washington.

Washington, June 22.—J. E. Henzleman, Jr., a student at Ann Arbor university, who is apparently suffering from overstudy, is detained here by the police pending the arrival of his father from Covington, Ind. The young man arrived in the city Sunday and attracted attention at his hotel by distributing tips of \$5 to the waiters. It is understood he wrote a letter addressed to President Roosevelt threatening that unless the latter's influence were used to further certain alleged inventions and land deals of magnitude, two or more men would be killed.

CONSPIRATORS PROMOTED.

King Peter Honors Officers Concerned in Serbian Crime.

Belgrade, June 22.—The promotions are announced of various members of the military deputations to King Peter at Geneva. Colonel Popovics, of the late King Alexander's palace guard, is created a general and first aide-de-camp to King Peter; Captain Kostics, who opened the palace gates for the assassins of the late king and queen, is promoted to be a major, and Lieutenant Gronica, who was on guard outside the palace on the night of the assassination and who was a confidant of the conspirators, is made a captain.

WILL BE MADE PUBLIC.

Report of Postal Investigation With Statement by President.

Washington, June 22.—When the pending investigation of the affairs of the postoffice department shall have been completed a full report of it will be made to President Roosevelt by the postmaster general. It is understood to be the present intention of the president to make the report public, accompanying it with a statement of his own reviewing the proceeding and making such comments upon it as he may deem advisable.

Shoots His Stepson.

Lancaster, Ky., June 22.—Fountain Land shot and killed his stepson, B. Land, Sunday. The younger Land was under the influence of liquor and was advancing on his stepfather with an axe.

Relatives in a Fatal Fight.

Lancaster, Ky., June 22.—In Horner's Lick church Sunday afternoon James Rogers killed Bud Ledford. They were brothers-in-law. Rogers claimed that he shot in self defense.

RIOTS IN FRANCE.

Fifteen Persons Injured in a Free Fight at Brest.

Paris, June 22.—Several riots arising out of collisions between clerical and anti-clerical are reported from several towns in the provinces in connection with religious processions. At Brest an anti-clerical mob attempted to seize the host from the hands of the priest as the procession was about to re-enter the cathedral. A free fight ensued in which fifteen persons, mostly women, were injured. Less serious trouble occurred at Nantes and Anger.

DECLARE STRIKE OFF

TEXTILE WORKERS OF LOWELL, MASS., ACKNOWLEDGE THEY ARE DEFEATED.

SOME MUST REMAIN IDLE

IMPOSSIBLE TO GIVE EMPLOYMENT TO ALL WHO MAY COME BACK.

Lowell, Mass., June 12.—The textile council Sunday afternoon declared the strike in the Lowell mills at an end. Every union affiliated with the council was represented and the vote was unanimous. Mule spinners and loom fixers were included in this vote, despite statements that they would oppose a return to work. When asked for a statement, President Conroy said:

"We now worship at the altar of defeat, but later we shall rise again and conquer."

Agent William S. Southworth, secretary of the employers said: "It will be impossible to start the remainder of the machinery so as to employ at once all who will come back. Running with an incomplete force for three weeks has disturbed the balance that usually exists between stock and prices in the various departments. It is for the selling agents and the treasurers to decide, in view of the market, whether we shall attempt to run in full. The strike began on March 30 and involved about 17,000 operatives. The mills were shut down until June 1, when the agents opened the gates and the majority of the operatives went back to work. The strike has cost in wages about \$1,300,000. It is understood that the agents will take back all the old help they have room for and will make no discrimination against the leaders of the strike movement. The high price of cotton precluded any hope of the success of the strikers' campaign for a 10 per cent increase."

HAVE GRIEVANCES.

Operators Will Complain to Conciliation Board About Several Things.

Wilkesbarre, Pa., June 22.—When the conciliation board meets here Thursday the operators will have grievances to be adjusted as well as the miners, and this will be a surprise to many of the latter, who believed that the coal companies had nothing to complain of. The operators will take exception to the many petty strikes, which are the cause of much inconvenience and annoyance, also that the nonunion men are being interfered with and that the coal output is lessened by the practice of employees remaining at home on certain days without permission. The miners will offset this with the charge of discrimination, that some of the men active in the strike have not been given work since, that the award of the commission has been violated by a change in the condition of mining at many places, which does not permit the miners to make as much now as before the strike, and that the operators have broken an old custom in the Schuylkill region by having the men work an hour longer on Saturday. Among other important questions which the miners want settled, will be the reduction of yardage, check weighmen, hours of labor for drivers and company hands.

Street Cars Resume Operations.

Dubuque, Ia., June 22.—Street cars resumed operations Sunday, with four companies of militia guarding the company's property. There was no disturbance.

TO ENTERTAIN EDITORS.

Omaha Committee Announces Completion of Its Programme.

Omaha, June 22.—The local committee which has in charge the arrangements for the entertainment of the National Editorial association meeting in Omaha, July 17, announces the completion of its programme. About 1,000 delegates will be present, for whom royal entertainment is prepared. On the afternoon of the last day a special train of four cars will leave for a two weeks' trip through Yellowstone park, and two other trains will carry delegates and their wives for a six days' trip through the Black Hills. The sessions will last from July 7 to 11.

He Knew What It Was.

A certain minister, while passing down the village street, observed one of his parishioners seated at his cottage door supping his broth.

Thinking this an unusual proceeding, he stopped and asked him what was the matter.

"Oh," replied John, "the chimney is reeking a bit, so I can't outside to sup my broth. Ye had better get in and give the missus a bit advice about it."

The minister had scarcely opened the door when a female voice exclaimed, "Is that thee agyen, thee awd rascal?"

And the minister's hat was crushed over his eyes with a stool.

Without making a remark the minister closed the door and, stepping up to where John sat, said solemnly, "John, our chimney at home smokes sometimes too!"

LYNCHERS AFTER WHITE.

Mobs Try to Get at Negro Accused of Fatal Assault.

Wilmington, Del., June 22.—What is believed to have been a deliberate attempt to wreck vengeance on George White, the negro, who is charged with assaulting and killing Helen Bishop, the seventeen-year-old daughter of the Rev. E. A. Bishop, was foiled before daylight Sunday morning through the watchfulness of the authorities and through lack of numbers in the attacking party. Ever since the girl died as a result of her injuries there has been talk of lynching and the police and the guards of the county workhouse, where the accused negro is confined, have been keeping a close eye on the situation.

Between 2 and 3 o'clock Sunday morning a band of about sixty men gathered at Marshallton, near the scene of the crime, and marched to the workhouse. The crowd was armed with pistols and shotguns.

When it reached the prison a demonstration was made and those who had weapons, fired them off. There was considerable shouting and calls for White. The workhouse is a strong, secure place, and invulnerable to such a small number of men. The chief warden had all his guards on duty, but they were not compelled to resist an attack because the crowd soon dispersed. Shortly after this a second mob of probably one hundred men were reported as marching on the workhouse from Wilmington. Police Captain Evans of the Wilmington force soon heard of this and sent a telephone warning to the warden. He followed this up by sending a squad of seventeen patrolmen to the workhouse and they dispersed a small crowd. About thirty men hung about the place until daybreak, when they also dispersed.

The family of the murdered girl is doing all it can to prevent violence and is advising the citizens to let the law take its course.

CONFESSES TO MURDER.

Washington Woman Admits Killing Her Husband With an Axe.

Pomery, Wash., June 22.—Amanda de Latrigne has confessed that she killed her husband on the night of Sept. 23, 1902, with an axe and buried the remains in the front yard of their farm where they were found recently. The woman asserts that De Latrigne came to her bedside while she slept, roused her and threatened her life, that he pursued her into the yard, shooting at her, when she seized an axe and sank it into his head. She buried the body herself the same night.

Mrs. De Latrigne was twenty years older than her husband.

KILLS HIS SWEETHEART.

Discarded Lover Then Tries to Commit Suicide.

Laurel, Del., June 22.—Miss Katie Atkins was shot and instantly killed at her home in Salisbury, Md., last night by Elmer Heath, her lover. After killing the young woman Heath fired three bullets into his head and fell unconscious. He was hurried in an ambulance to jail to prevent a lynching. He may recover. The dead girl and her lover are under twenty-one and were to have been married last Thursday, but Miss Atkins broke the engagement when she learned that Heath had stolen money from his employer.

INJURED AND ARRESTED.

Alleged Safe-Blower Comes to Grief at Jolietville, Ind.

Noblesville, Ind., June 22.—George Marvin, said to be from Chicago, is in the county jail here as a result of an alleged attempt to blow open the safe in a general store at Jolietville. Citizens of the village, who were awakened by a terrific explosion, found Marvin lying unconscious near the store with one arm blown away and his body terribly mangled. When the citizens approached a second man ran away, making his escape. The accidental dropping of a can of nitroglycerin was the cause of the explosion.

ROBBERS ARRESTED.

Package of Stamps Points to Recent Looting of a Postoffice.

Bellefonte, Pa., June 22.—A gang of robbers arrested in the Seven mountains Saturday had evidently committed a postoffice robbery recently. A package they had buried in the old barn where they were captured, has been found, and in it were postage stamps of all denominations from one to ten cents, aggregating in value \$167.44. In the package were two bottles of nitroglycerin and several other articles. One of the men was shot by the sheriff's posse, but probably will recover.

SECOND DEGREE MURDER.

M. J. Lesia Found Guilty of Killing His Father-in-Law.

Portland, Ore., June 22.—M. J. Lesia, who last May went to the home of his divorced wife and shot and killed her father, and compelled her to flee with him, has been found guilty of murder in the second degree. Sentence has been deferred. After an exciting chase that lasted three days, Lesia and the woman were found asleep in a barn on the Columbia river, where they had taken temporary refuge in their flight.

Escorted by State Troops.

Goodland, Kan., June 22.—Chauncey Dewey, William J. McBride and Clyde Wilson arrived here Sunday from St. Francis, accompanied by soldiers of the state militia, having walked the entire distance of thirty-five miles.

WINS KING MEDAL.

J. E. Schmidt of Milwaukee Obtains Leading Honors at St. Louis.

St. Louis, June 22.—J. E. Schmidt of Milwaukee is entitled to leading honors at the fourth biennial tournament of the Central Sharpshooters' union of North America, which ended here Saturday, and Sunday he was announced king of the medal upon inspection of the errors. Not only did he win the king medal, but he made the best shot at the man target.

In the World's Fair target, F. S. Schurz of Chicago was given first place upon the scores being measured to decide which shot was closest to the center. Owing to the absence of Schmidt from the festivities of the closing day, it was decided to select Schurz as king, which was accordingly done.

Schurz' victory in the World's Fair shoot was something of a surprise. J. E. Schmidt finished in second place. Harry Pone made the best score on the people's target—75 points—but his closing shot on the man target placed him fourth in that shoot. Ross made the best score in the point target with a total of 460.

Wilhelm Rosser made the best score in the honor target. W. A. Cope of Wausau, Wis., made the best score on the Syrch target.

At the last meeting of the Sharpshooters' union it was decided to hold the next national tournament at Davenport, two years hence.

Entry of Titus Rejected.

New York, June 22.—The World says that the entry of C. S. Titus, the champion amateur oarsman of America, has been rejected by the American Henley committee at Philadelphia. The rejection is made under Rule 10 under which no reason need be given.

TELEGRAPHIC BREVITIES.

Quiet prevails at Jackson, Ky.

The situation in Manchuria remains practically unchanged.

James McKinney, the Montana fugitive outlaw, was shot and killed by a ranchman.

The Very Rev. Herbert Vaughan, cardinal archbishop of Westminster, is dead at London.

All the oarsmen at Poughkeepsie are putting on weight, especially the Wisconsin crew. This is due to the cool weather.

The Picket won the American Derby at Chicago. Claude was second, Bernays third. Time, 2:33. Attendance, 70,000.

Samuel Vernon Veele, for many years one of the best known dramatic and musical critics in Chicago, is dead of bronchitis.

The Indian Baptist association, which is composed of Kiowa Indians, has adopted a resolution excluding all whites from their meetings.

It is reported from Apsang, Austria, that ten persons were burned to death in a fire which destroyed the greater part of the village of Moench-Kirchen.

G. Z. Zoubkov, a Russian, has succeeded in living as a lama for a year in Lhasa, Tibet. He will publish a book on that hitherto unknown city.

There has been no smallpox in Cuba since July, 1900, nor yellow fever since September, 1901, and the progressive decrease in malaria has continued without interruption.

Major Stephen Johnson died at his home at St. Paul, O., Sunday of paralysis, aged ninety-one years. He served with distinction in the Civil war, and was the Greenback candidate for governor of Ohio in 1877.

The emigration figures for May, 1903, show that more than twice as many persons emigrated from Denmark to America as during the same period last year and the "American fever" shows no signs of abating.

Fierce Battle Between Moorish Troops and Rebels.

Madrid, June 22.—According to a dispatch received here from Tangier, El Meneshli, the Moorish war minister, has lost 6,000 men in a battle fought with the rebels at Anniedin.

Shower Bath for Mrs. Nation.

St. Paul, June 22.—Carrie Nation of Kansas entered a saloon here and started to deliver a temperance harangue. Believing one of her violent gestures was a blow at his head, the bartender ducked and, seizing a syphon, sprayed Mrs. Nation liberally. A policeman led the wet and irate woman from the saloon without any further trouble occurring.

Running with an incomplete force for three weeks has disturbed the balance that usually exists between stock and prices in the various departments. It is for the selling agents and the treasurers to decide, in view of the market, whether we shall attempt to run in full. The strike began on March 30 and involved about 17,000 operatives. The mills were shut down until June 1, when the agents opened the gates and the majority of the operatives went back to work. The strike has cost in wages about \$1,300,000. It is understood that the agents will take back all the old help they have room for and will make no discrimination against the leaders of the strike movement. The high price of cotton precluded any hope of the success of the strikers' campaign for a 10 per cent increase."

HAVE GRIEVANCES.

Operators Will Complain to Conciliation Board About Several Things.

Wilkesbarre, Pa., June 22.—When the conciliation board meets here Thursday the operators will have grievances to be adjusted as well as the miners, and this will be a surprise to many of the latter, who believed that the coal companies had nothing to complain of. The operators will take exception to the many petty strikes, which are the cause of much inconvenience and annoyance, also that the nonunion men are being interfered with and that the coal output is lessened by the practice of employees remaining at home on certain days without permission. The miners will offset this with the charge of discrimination, that some of the men active in the strike have not been given work since that the award of the commission has been violated by a change in the condition of mining at many places, which does not permit the miners to make as much now as before the strike, and that the operators have broken an old custom in the Schuylkill region by having the men work an hour longer on Saturday. Among other important questions which the miners want settled, will be the reduction of yardage, check weighmen, hours of labor for drivers and company hands.

Street Cars Resume Operations.

Dubuque, Ia., June 22.—Street cars resumed operations Sunday, with four companies of militia guarding the company's property. There was no disturbance.

TO ENTERTAIN EDITORS.

Omaha Committee Announces Completion of Its Programme.

Omaha, June 22.—The local committee which has in charge the arrangements for the entertainment of the National Editorial association meeting in Omaha, July 17, announces the completion of its programme. About 1,000 delegates will be present, for whom royal entertainment is prepared. On the afternoon of the last day a special train of four cars will leave for a two weeks' trip through Yellowstone park, and two other trains will carry delegates and their wives for a six days' trip through the Black Hills. The sessions will last from July 7 to 11.

He Knew What It Was.

A certain minister, while passing down the village street, observed one of his parishioners seated at his cottage door supping his broth.

Thinking this an unusual proceeding, he stopped and asked him what was the matter.

"Oh," replied John, "the chimney is reeking a bit, so I can't outside to sup my broth. Ye had better get in and give the missus a bit advice about it."

The minister had scarcely opened the door when a female voice exclaimed, "Is that thoo agyen, thoo awd rascal?" And the minister's hat was crushed over his eyes with a stool.

Without making a remark the minister closed the door and, stepping up to where John sat, said solemnly, "John, our chimney at home smokes sometimes too!"

LYNCHERS AFTER WHITE.

Mobs Try to Get at Negro Accused of Fatal Assault.

Wilmington, Del., June 22.—What is believed to have been a deliberate attempt to wreck vengeance on George White, the negro, who is charged with assaulting and killing Helen Bishop, the seventeen-year-old daughter of the Rev. E. A. Bishop, was foiled before daylight Sunday morning through the watchfulness of the authorities and through lack of numbers in the attacking party. Ever since the girl died as a result of her injuries there has been talk of lynching and the police and the guards of the county workhouse, where the accused negro is confined, have been keeping a close eye on the situation.

Between 2 and 3 o'clock Sunday morning a band of about sixty men gathered at Marshallton, near the scene of the crime, and marched to the workhouse. The crowd was armed with pistols and shotguns.

When it reached the prison a demonstration was made and those who had weapons, fired them off. There was considerable shouting and calls for White. The workhouse is a strong, secure place, and invulnerable to such a small number of men. The chief warden had all his guards on duty, but they were not compelled to resist an attack because the crowd soon dispersed. Shortly after this a second mob of probably one hundred men were reported as marching on the workhouse from Wilmington. Police Captain Evans of the Wilmington force soon heard of this and sent a telephone warning to the warden. He followed this up by sending a squad of seventeen patrolmen to the workhouse and they dispersed a small crowd. About thirty men hung about the place until daybreak, when they also dispersed.

The family of the murdered girl is doing all it can to prevent violence and is advising the citizens to let the law take its course.

CONFESSES TO MURDER.

Washington Woman Admits Killing Her Husband With an Axe.

Pomeroy, Wash., June 22.—Amanda de Latigue has confessed that she killed her husband on the night of Sept. 23, 1902, with an axe and buried the remains in the front yard of their farm where they were found recently. The woman asserts that De Latigue came to her bedside while she slept, roused her and threatened her life, that he pursued her into the yard, shooting at her, when she seized an axe and sank it into his head. She buried the body herself the same night. Mrs. De Latigue was twenty years older than her husband.

KILLS HIS SWEETHEART.

Discarded Lover Then Tries to Commit Suicide.

Laurel, Del., June 22.—Miss Katie Atkins was shot and instantly killed at her home in Salisbury, Md., last night by Elmer Heath, her lover. After killing the young woman Heath fired three bullets into his head and fell unconscious. He was hurried in an ambulance to jail to prevent a lynching. He may recover. The dead girl and her lover are under twenty-one and were to have been married last Thursday, but Miss Atkins broke the engagement when she learned that Heath had stolen money from his employer.

INJURED AND ARRESTED.

Alleged Safe-Blower Comes to Grief at Jolietville, Ind.

Noblesville, Ind., June 22.—George Marvin, said to be from Chicago, is in the county jail here as a result of an alleged attempt to blow open the safe in a general store at Jolietville. Citizens of the village, who were awakened by a terrific explosion, found Marvin lying unconscious near the store with one arm blown away and his body terribly mangled. When the citizens approached, a second man ran away, making his escape. The accidental dropping of a can of nitroglycerin was the cause of the explosion.

ROBBERS ARRESTED.

Package of Stamps Points to Recent Looting of a Postoffice.

Bellefonte, Pa., June 22.—A gang of robbers arrested in the Seven mountains Saturday had evidently committed a postoffice robbery recently. A package they had buried in the old barn where they were captured, has been found, and in it were postage stamps of all denominations from one to ten cents, aggregating in value \$167.44. In the package were two bottles of nitroglycerin and several other articles. One of the men was shot by the sheriff's posse, but probably will recover.

SECOND DEGREE MURDER.

M. J. Lesia Found Guilty of Killing His Father-in-Law.

Portland, Ore., June 22.—M. J. Lesia, who last May went to the home of his divorced wife and shot and killed her father, and compelled her to flee with him, has been found guilty of murder in the second degree. Sentence has been deferred. After an exciting chase that lasted three days, Lesia and the woman were found asleep in a barn on the Columbia river, where they had taken temporary refuge in their flight.

Escorted by State Troops.

Goodland, Kan., June 22.—Chauncey Dewey, William J. McBride and Clyde Wilson arrived here Sunday from St. Francis, accompanied by soldiers of the state militia, having walked the entire distance of thirty-five miles.

WINS KING MEDAL.

J. E. Schmidt of Milwaukee Obtains Leading Honors at St. Louis.

St. Louis, June 22.—J. E. Schmidt of Milwaukee is entitled to leading honors at the fourth biennial tournament of the Central Sharpshooters' union of North America, which ended here Saturday, and Sunday he was announced king of the medal, upon inspection of the scores. Not only did he win the king medal, but he made the best shot at the man target.

In the World's Fair target, F. S. Schurz of Chicago was given first place upon the scores being measured to decide which shot was closest to the center. Owing to the absence of Schmidt from the festivities of the closing day, it was decided to select Schurz as king, which was accordingly done.

Schurz' victory in the World's Fair shot was something of a surprise. J. E. Schmidt finished in second place. Harry Pone made the best score on the people's target—75 points—but his closing shot on the man target placed him fourth in that shoot.

Ross made the best score in the point target, with a total of 460. Wilhelm Rosser made the best score in the honor target. W. A. Cope of Wausau, Wis., made the best score on the Strych target.

At the last meeting of the Sharpshooters' union it was decided to hold the next national tournament at Davenport, two years hence.

Entry of Titus Rejected.

New York, June 22.—The World says that the entry of C. S. Titus, the champion amateur careman of America, has been rejected by the American Henley committee at Philadelphia. The rejection is made under Rule 16 under which no reason need be given.

TELEGRAPHIC BREVITIES.

Quiet prevails at Jackson, Ky. The situation in Manchuria remains practically unchanged. James McKinney, the Montana fugitive outlaw, was shot and killed by a ranchman.

The Very Rev. Herbert Vaughan, cardinal archbishop of Westminster, is dead at London. All the cardmen at Poughkeepsie are putting on weight, especially the Wisconsin crew. This is due to the cool weather.

The Picket won the American Derby at Chicago. Claude was second, Bernays third. Time, 2:33. Attendance, 79,600.

Samuel Vernon Veele, for many years one of the best known dramatic and musical critics in Chicago, is dead of bronchitis.

The Indian Baptist association, which is composed of Kiowa Indians, has adopted a resolution excluding all whites from their meetings.

It is reported from Aswang, Austria, that ten persons were burned to death in a fire which destroyed the greater part of the village of Moench-Kirchen.

G. Z. Zoubloff, a Russian, has succeeded in living as a lama for a year in Lhasa, Tibet. He will publish a book on that hitherto unknown city.

There has been no smallpox in Cuba since July, 1900, nor yellow fever since September, 1901, and the progressive decrease in malaria has continued without interruption.

Major Stephen Johnson died at his home at Piqua, O., Sunday of paralysis, aged ninety-one years. He served with distinction in the Civil war, and was the Greenback candidate for governor of Ohio in 1877.

The emigration figures for May, 1903, show that more than twice as many persons emigrated from Denmark to America as during the same period last year and the "American fever" shows no signs of abating.

SIX THOUSAND MEN LOST.

Fierce Battle Between Moorish Troops and Rebels.

Madrid, June 22.—According to a dispatch received here from Tangier, El Meneshi, the Moorish war minister, has lost 6,000 men in a battle fought with the rebels at Amaliedina.

Shower Bath for Mrs. Nation.

St. Paul, June 22.—Carrie Nation of Kansas entered a saloon here and started to deliver a temperance harangue. Believing one of her violent gestures was a blow at his head, the bartender ducked, and, seizing a syphon, sprayed Mrs. Nation liberally. A policeman led the wet and irate woman from the saloon without any further trouble occurring.

WILL STIR CHURCH CIRCLES

Wisconsin Divine's New Book Disputes Immaculate Conception.

Dr. T. Allen Hoben of Waupun, Wis., is the author of a book which will create a sensation in church circles, says a Milwaukee special to the Chicago Record-Herald. The birth of the book is "The Virgin Birth." In it he disputes the doctrine of the immaculate conception. Dr. Hoben claims that Jesus of Nazareth came into the world in a manner no different than "any other man born of woman."

The report that the book is to be used as a textbook by the University of Chicago will give it more prominence. Dr. Hoben claims that the doctrine of the virgin birth is not found in any writings prior to Ignatius in the second decade of the second century.

Dr. Hoben is the pastor of the Union church at Waupun. He held the fellowship of the New Testament in the University of Chicago from 1898 to 1901, when he was called to his present parish. His church is unique from the fact that it is formed by the union of three independent churches.

SCHOOLMA'AMS CONQUER.

How Progress of Public School System in Philippines is Succeeding.

There is testimony that education in the Philippines under American auspices is going on more successfully than recent adverse reports would imply. The thousand American teachers there, assisted by 3,400 native auxiliaries, carry on 2,250 day, evening and high schools, with an enrollment in round numbers of a quarter of a million scholars, practically all of them eager to learn the English language as the basis of their school training and educational and social outfit. The report that there was opposition to this and a clinging to the Spanish speech on the part of pupils and parents as the only one needful turns out to be merely moonshine.

F. W. Nash, writing from Manila in the Educational Review, says that perhaps the best illustration of the advancement made in English education within the last two or three years is the fact that thousands of Filipino students who had never heard a word of that tongue three years ago are today able to receive in instruction in the common school branches and to employ it freely in their conversation. Two years ago there were less than 200 native teachers who could give any instruction in English; today there are more than 2,000 actually teaching in this language and daily putting in practice methods and ideas learned in the American taught normal schools and from American teachers.

TO KILL GRASSHOPPERS.

Minnesota Entomologist Invents New Mixture to Destroy Pests.

F. L. Washburn, Minnesota state entomologist at the agricultural experiment station at St. Anthony park, has issued a pamphlet describing a new remedy for grasshoppers, says a St. Paul special to the Chicago Inter Ocean. He calls the new remedy the Criddle mixture, and he says that the difference between this poisoned bait and others consists in the substitution of refuse for the bran so commonly used.

This mixture is made of one part paris green, two parts salt and forty parts refuse. Enough water should be added to make it soft without being sloppy. It should be scattered about the fields well in quantity according to the number of grasshoppers. It is most effective when fresh, but will do excellent work when several weeks old, even after being washed by rain.

A NEW SANDWICH.

Novel Method of Serving Ice Cream on the Streets.

A new kind of ice cream sandwich recently made its appearance on the streets, says the Philadelphia Press. It is an English invention, but a hustling vender has secured the American rights to it and has placed it on the market. Once the ice cream peddlers sold their ware on a slip of paper, which when the cream was eaten was thrown away. Then the ice cream sandwich as we know it now came into being. Now, however, we have a combination of the two, for the new sandwich is a cracker cup filled with cream.

The English process, which bakes the cracker in the form of a cup, also imparts various flavors to it, and the happy street urchin can eat his delicacy without having to throw the receptacle away, as he used to do, and without losing any of the cream by leakage as is now the case.

A HISTORIC SCHOOL.

It Was Established at Dorchester, Mass., in 1639.

The first public school in America to be supported by direct taxation "upon the inhabitants of a town" was established at Dorchester, Mass., in May, 1639.

In 1636 David Thompson had settled upon Thompson's island, off the coast of the colony town, and in 1638 he gave the island to the town on the payment of 12 pence yearly rental. Having transferred the island to the town, the town council met May 20, 1639, and adopted the following order:

It is ordered the 20th day of May, 1639, that there shall be a rent of £20 a year imposed forever on Thompson's island, to be paid by every person that hath property in said island, according to the proportion that any such person shall from time to time enjoy and possess there, and this toward the maintenance of a school in Dorchester. This rent of £20 a year to be paid to such schoolmaster as shall undertake to teach English, Latin and other tongues, also writing. The said schoolmaster to be chosen from time to time by the freemen, and it is left to the discretion of the elders and the seven men for the time being whether maids shall be taught with the boys or not. For the levying of this £20 yearly from the particular persons who ought to pay it according to this order it is further ordered that some man shall be appointed by the seven men for the time being to receive this, and on refusal to levy it by distress and not finding distress such person as so refuse payment shall forfeit the land he hath in propriety in said island.

Here the first teacher was the Rev. Thomas Waterhouse.—Chicago Tribune.

Camera Shows Twins to Be Unlike.

"It is a curiosity of photography that two persons who look alike in the flesh look entirely unlike in a picture," said a photographer. "I saw that peculiarity of the human countenance strangely exemplified in the case of two girls whom I photographed a few weeks ago. The girls were twins. Each was the dead image of the other, and I felt positively uncanny when posing them, for I expected the result to be two pictured faces startlingly alike. But they did not turn out so. The features were the same, to be sure, but in the photographic process the underlying expression had been brought to the fore and had given to each girl an individuality of her own which diminished the resemblance wonderfully."

"I have noticed the same peculiarity in other cases of photographing doubles, although never in so pronounced a degree. In some faces expression counts for much more than feature, even in photography, and, although the cheeks, nose and mouth may be cast in the same mold, the camera gives results widely different."—New York Press.

Some Practical Advice.

It is not necessary to leave your home and friends, give up your occupation or put on a uniform to do good. Here is a simple way: When you hear a good thing said about a man, tell him. This line of missionary work does not take any of your time from your legitimate business.—Athenian Globe.

The Subject He Liked Best.

"You talk well on the subject in which you are most interested," said the impertinent girl.
"And what is that?" said the man, smiling a compliment.
"Yourself," said the impertinent girl demurely.

Mr. and Mrs. J. L. Smith, who have been guests of Mrs. S. L. Sleeper for some time, returned to their home in Minneapolis this afternoon.

Marriage licenses have been issued by Clerk of Court W. A. M. Johnston to Peter Frost and Annie Liddberg; Joseph Petroskie and Clara Darcinoryk.

C. B. Satherthwaite, of Minneapolis, was in the city yesterday. He is interested in the Geodeon society and is an old friend of Rev. Richard Brown.

A big baby boy was born to Mr. and Mrs. Edward French yesterday morning and the proud father is so happy that he did not go to work this morning.

Miss Curry has been in the city for a few days visiting friends. She has just returned from Superior where she has been teaching school the past year and is on her way home to St. Cloud.

The ladies of St. Francis Catholic church will give an ice cream social and serve an excellent supper tomorrow evening in the basement of the church. This will be a good supper and will be worth the price.

Col. Freeman Thorp came in from Hubert this noon. He left this afternoon for Dubuque, Ia., to finish painting the portrait of ex-Speaker Henderson. From there he will go to Omaha where he has arranged to paint a portrait of J. A. Creighton, a prominent banker of that city.

Attorney A. E. Bow has arrived in the city from Washington state to locate. He was formerly an attorney in Minneapolis but went west about a year ago. Neither he nor his family liked the country and are now returning to Minnesota. Mrs. Bow and children will arrive in the city in a few days.

Mrs. John Moore, cook for Mr. and Mrs. F. S. Parker, at Parkerville, was suddenly taken with a stroke of paralysis last night. She was standing over the stove at the time cooking. Dr. Camp was called out and found the woman in very bad condition, and she is not much improved today.

Mrs. Jennie Bevins and Frank Johnson, Jr., left today for an extended visit in Ohio.

The choir of the Swedish Methodist church will give a musical in Bakalla hall tomorrow evening. Refreshments will be served.

WILL STIR CHURCH CIRCLES

Wisconsin Divine's New Book Disputes Immaculate Conception.

Dr. T. Allen Hoben of Waupun, Wis., is the author of a book which will create a sensation in church circles, says a Milwaukee special to the Chicago Record-Herald. The birth of the book is "The Virgin Birth." In it he disputes the doctrine of the immaculate conception. Dr. Hoben claims that Jesus of Nazareth came into the world in a manner no different than "any other man born of woman."

The report that the book is to be used as a textbook by the University of Chicago will give it more prominence. Dr. Hoben claims that the doctrine of the virgin birth is not found in any writings prior to Ignatius in the second decade of the second century.

Dr. Hoben is the pastor of the Union church at Waupun. He held the fellowship of the New Testament in the University of Chicago from 1898 to 1901, when he was called to his present parish. His church is unique from the fact that it is formed by the union of three independent churches.

SCHOOLMA'AMS CONQUER.

How Progress of Public School System in Philippines Is Succeeding.

There is testimony that education in the Philippines under American auspices is going on more successfully than recent adverse reports would imply. The thousand American teachers there, assisted by 3,400 native auxiliaries, carry on 2,250 day, evening and high schools, with an enrollment in round numbers of a quarter of a million scholars, practically all of them eager to learn the English language as the basis of their school training and educational and social outfit. The report that there was opposition to this and a clinging to the Spanish speech on the part of pupils and parents as the only one needful turns out to be merely moonshine.

F. W. Nash, writing from Manila in the Educational Review, says that perhaps the best illustration of the advancement made in English education within the last two or three years is the fact that thousands of Filipino students who had never heard a word of that tongue three years ago are today able to receive in it instruction in the common school branches and to employ it freely in their conversation. Two years ago there were less than 200 native teachers who could give any instruction in English; today there are more than 2,000 actually teaching in this language and daily putting in practice methods and ideas learned in the American taught normal schools and from American teachers.

TO KILL GRASSHOPPERS.

Minnesota Entomologist Invents New Mixture to Destroy Pests.

F. L. Washburn, Minnesota state entomologist at the agricultural experiment station at St. Anthony park, has issued a pamphlet describing a new remedy for grasshoppers, says a St. Paul special to the Chicago Inter Ocean. He calls the new remedy the Criddle mixture, and he says that the difference between this poisoned bait and others consists in the substitution of refuse for the bran so commonly used.

This mixture is made of one part paris green, two parts salt and forty parts refuse. Enough water should be added to make it soft without being sloppy. It should be scattered about the fields well in quantity according to the number of grasshoppers. It is most effective when fresh, but will do excellent work when several weeks old, even after being washed by rain.

A NEW SANDWICH.

Novel Method of Serving Ice Cream on the Streets.

A new kind of ice cream sandwich recently made its appearance on the streets, says the Philadelphia Press. It is an English invention, but a bustling vender has secured the American rights to it and has placed it on the market. Once the ice cream peddlers sold their ware on a slip of paper, which when the cream was eaten was thrown away. Then the ice cream sandwich as we know it now came into being. Now, however, we have a combination of the two, for the new sandwich is a cracker cup filled with cream.

The English process, which bakes the cracker in the form of a cup, also imparts various flavors to it, and the happy street urchin can eat his delicacy without having to throw the receptacle away, as he used to do, and without losing any of the cream by leakage as is now the case.

A HISTORIC SCHOOL.

It Was Established at Dorchester, Mass., in 1639.

The first public school in America to be supported by direct taxation "upon the inhabitants of a town" was established at Dorchester, Mass., in May, 1639.

In 1636 David Thompson had settled upon Thompson's island, off the coast of the colony town, and in 1638 he gave the island to the town on the payment of 12 pence yearly rental. Having transferred the island to the town, the town council met May 20, 1639, and adopted the following order:

It is ordered the 20th day of May, 1639, that there shall be a rent of £20 a year imposed forever on Thompson's island, to be paid by every person that hath property in said island, according to the proportion that any such person shall from time to time enjoy and possess there, and this toward the maintenance of a school in Dorchester. This rent of £20 a year to be paid to such schoolmaster as shall undertake to teach English, Latin and other tongues, also writing. The said schoolmaster to be chosen from time to time by the freemen, and it is left to the discretion of the elders and the seven men for the time being whether maids shall be taught with the boys or not. For the levying of this £20 yearly from the particular persons who ought to pay it according to this order it is further ordered that some man shall be appointed by the seven men for the time being to receive this, and on refusal to levy it by distress and not finding distress such person as so refuse payment shall forfeit the land he hath in propriety in said island.

Here the first teacher was the Rev. Thomas Waterhouse.—Chicago Tribune.

Camera Shows Twins to Be Unlike.

"It is a curiosity of photography that two persons who look alike in the flesh look entirely unlike in a picture," said a photographer. "I saw that peculiarity of the human countenance strangely exemplified in the case of two girls whom I photographed a few weeks ago. The girls were twins. Each was the dead image of the other, and I felt positively uncanny when posing them, for I expected the result to be two pictured faces startlingly alike. But they did not turn out so. The features were the same, to be sure, but in the photographic process the underlying expression had been brought to the fore and had given to each girl an individuality of her own which diminished the resemblance wonderfully."

"I have noticed the same peculiarity in other cases of photographing doubles, although never in so pronounced a degree. In some faces expression counts for much more than feature, even in photography, and although the cheeks, nose and mouth may be cast in the same mold, the camera gives results widely different."—New York Press.

Some Practical Advice.

It is not necessary to leave your home and friends, give up your occupation or put on a uniform to do good. Here is a simple way: When you hear a good thing said about a man, tell him. This line of missionary work does not take any of your time from your legitimate business.—Arlinson Globe.

The Subject He Liked Best.

"You talk well on the subject in which you are most interested," said the impertinent girl.

"And what is that?" said the man, smelling a compliment.

SERVICES WERE VERY IMPRESSIVE

One Hundred and Thirty Children
Receive Their First Com-
munion at St. Francis

THE MUSIC WAS EXCELLENT.

And the Floral Decorations Were
the Most Profuse Ever
Seen in This City

The services at St. Francis Catholic church yesterday were most impressive, especially in the morning when one hundred and thirty children, seventy-five of them boys and fifty-five of them girls, received their first communion.

The church at the 9:30 o'clock service was crowded, and the music for the occasion was delightful. There was a full orchestra composed of Frank Ady and his two sons, Will and Clem Ady, and Prof. Graham. Millard's mass was sung by the choir and when the children marched into the church the orchestra played "The Holy City." Frank Ady played as an interlude the "Flower Song," and it was a pleasing rendition. Just preceding the communion Rev. D. W. Lynch addressed the children, the boys first, who were seated on the north side of the church, and the girls afterward. He called the attention of the girls to the fact that it was an important epoch in their lives and hoped they would live and grow to be true and virtuous women. To the boys he said that there were two things which degrade the man to the level of the beast, intemperance and immorality. Shun these and they would get along in life better. He set up the path trod by the Saviour as an example for the boys. His remarks were very impressive and full of good thought.

The altar and sanctuary was completely covered with a profusion of flowers and it was the prettiest sight that has greeted the eyes for a long time.

HITCHCOCK APPROVES.

The Selections Made by Chief Pinchat of
the Forestry Bureau of the
Agricultural Department

Chief Pinchat of the forestry bureau of the agricultural department recently submitted to the secretary of the interior three lists of land in the Winnibigoshish, Chippewa and Leech lake reservations, to be applied to forestry purposes as required by the Morris act. One embraces 89,707 acres of pine land, and the second contains 14,752 of agricultural land, all within the areas recently reserved for sale on these reservations for the use of the forestry bureau. The third list contains 86,339 acres, contiguous to the reserved area, selected under what is known as the "ten sections" provision of the Morris act. The forestry bureau still has the option of selecting about 100,000 acres in other parts of the ceded reservations for forestry purposes under the law.

Secretary Hitchcock has approved that selections and forwarded them to the land office for recording in the plat books.

Logs at Minneapolis.

The surveyor-general of the second district this week issued his report showing the number of feet of logs, turned to the Minneapolis mills during the months of April and May. The total number of logs scaled in this period were 863,539 aggregating 62,615,990 feet. Of these 799,626 logs or 57,351,310 feet were driven down the Mississippi to Minneapolis for sawing there and 63,913 logs or 15,264,680 feet came in by rail. These figures show a considerable falling off as compared with the scale for the same months of last year, which was 962,304 logs or 70,836,160 feet. As compared with 1901 the falling off is still more marked, the decrease for April and May approximating 58,000,000 feet. The present season so far has not been ideal for sawing. High water has been experienced too large a portion of the time. —Mississippi Lumberman.

Yesterday the members of the I. O. O. F. in this city celebrated their annual memorial day, in the morning going to the graves of the deceased Oddfellows to decorate them with the twig of evergreen, and in the evening attending services in a body at the First Congregational church.

Rev. Richard Brown preached a most eloquent and interesting sermon, which was full of good food for the mind and soul. The services were made the more interesting by the presence of the Apollo male quartette, which rendered two selections in a very pleasing manner.

ATTORNEY BANNON TO LEAVE.

He Has Taken a Position with the Great
Northern as Contracting Freight
Agent at Duluth.

Attorney F. L. Bannon, of the firm of Heino & Bannon, will leave this city tomorrow for Duluth where he expects to make his home in the future. He has accepted a lucrative position with the Great Northern railway at Duluth as contracting freight agent.

While Mr. Bannon's friends will all be sorry to have him leave the city they will wish him well in his new field of action.

He has been in this city for about a year associated with J. R. Heino in the practice of law. During that time he has made many friends, and has built up a good practice, but the inducements held out by the Great Northern could not well be overlooked. On account of his past experience in the claim department of the St. Louis road his services are of particular value. He expects to some day not far distant become connected with the legal department of the Great Northern where he is sure to succeed. He is a young man of ability and all here will watch his future progress with keen interest.

The firm of Heino & Bannon has dissolved by mutual consent and arrangements will be made by Mr. Heino for the business pending here. Mr. Bannon has had several offers from the Great Northern during the past few months to go into the legal department of the road, but was never decided what to do until a few days ago when he wrote them and they replied that they would for the present place him at Duluth as general contracting freight agent until there would be another opening in the legal department which they expect will be very soon.

Chas. Jacobson, a lumberjack, was apprehended this morning at an early hour just as he was about to board a train, and his joblots was marched back to the place where he had been getting his feed for several months last past by the graciousness of the landlord. He owed the Antlers hotel management some \$30 for board and promised to settle yesterday when he got his check. He did not get his check cashed there, however, but went over to the Swanson hotel. Officers Hurley and Preston had been put on and they saw the man make for the train as soon as he got the check cashed. They nabbed him and he was glad to walk over to the Antlers and settle, which he did "so politely."

WILD AND WOOLLY TIMES AT FT. RIPLEY

A Miss Maguan While Out Berry-
ing is Shot at by Two Young
Desperadoes.

OTHER CRIMES COMMITTED.

A Man by the Name of Brecht
Held up Day or Two Ago and
Money Taken.

The residents of Fort Ripley are up in arms today over an attack made yesterday afternoon by two young desperadoes on Miss Maguan, the sixteen year old daughter of Mr. and Mrs. Archie Maguan, living not far from the village, and they are justly indignant in view of the fact that the same two young men, who skipped out last night, are thought to have been the perpetrators of several other little crimes during the last few days in the vicinity of that village.

Miss Maguan had gone out alone yesterday afternoon and was berrying about half a mile from the house. Two young men under a tree not far from where she was held her up, or rather attempted to do so, but she ran toward her home. Two shots were fired at her with a revolver and it was a close call, both bullets passing through her dress but not injuring her. She made her way to her home and fell prostrate from fright at the door of the house.

The same two young men, who have been hanging about Fort Ripley for several days, are thought to be the ones who held up a man by the name of Brecht a few days ago, relieving him of quantity of money, and who have also committed other like depredations.

The shriffs of Morrison, Cass, Aitkin and Crow Wing are on the lookout for the young men and they will make an effort to capture them. They are thought to have headed this way and Sheriff Erickson is keeping an eye out.

Cheaper Panama Hats.

Juan B. Flores, a Peruvian manufacturer of panama hats, who was at the Hotel Baltimore in Kansas City the other day, says, according to the Kansas City Times, the panama hat will be just as popular this year, but that it will be less expensive than it was last summer. Mr. Flores says that he sold 7,000 dozen panama hats last season in the United States and expects to sell many more than that this year. He says the lateness of the spring season this year has hurt the panama hat business considerably.

MUSIC AND DRAMA.

"RESURRECTION"

Brainerd theatre-goers were given a treat on Saturday night when Melbourne MacDowell and Miss Florence Stone, supported by an excellent company, presented Tolstoi's "Resurrection." This piece is one of extreme intensity, an intensity which strains the listener to the utmost and keeps him in a sphere of emotional anxiety, a state of feeling which is enjoyed, for who is there that does not like at times to be taken out and lifted above the walks of ordinary life, and have pictured to them agony, despair and trouble in all its asperity and heart rending scenes, and especially so when it is realized that this piece was but a true story of the actual condition of an oppressed people; it gives the everyday troubles of man such an insignificant standing.

The role of Prince Nekhlof taken by Mr. MacDowell gives him ample scope to show his versatility as an actor, from the first act where he plays the part of a lover to the last scene when on the road to Siberia he in his princely power raises his hand to check the brutal assaults upon the convicts, he is full of power.

Miss Stone as Katusha Maslova was simply sublime. She went down from the elian heights of beauty and innocence to the depths of degradation, only to emerge again to the plane of a sweet Christian who was willing to devote the rest of her life to work among the convicts in Siberia, and all her work was finished. Space would not permit a lengthy review of this lady's work, but suffice it to say that the theatre goer, the one who attends for no other reason than to get good from a play, who could not find a feast in the work of Miss Stone on Saturday night might better look to other sources for enjoyment.

BASE BALL NUBS

The Aitkin Republican in referring to the part Dr. Watkins took in the game here with the Elks, sends out this "wail" that would flag a meat wagon, but then they have to do just so much scrapping up at Aitkin over base ball anyway: "Then the much advertised Doc. Watkins, he of the \$10,000 south-sided whip, was carefully rubbed down and led to the slab. And while we will admit right now that this same Watkins is without question a very fine ball player, he has habits on the diamond which would not be tolerated in the squared circle, and which would militate against the laying of many bouquets at his feet on a wide circuit. However, he is the idol of the Brainerd fan; anything he says or does goes, and under the circumstances he may be excused for resorting to some tactics which are not strictly according to Hoyle."

In another column is the following taken from the writeup of the game between the high school team of this city and the Juniors of that city:

"We understand the Brainerd game was characterized by considerable wrangling. It is unfortunate that the Brainerd and Aitkin teams cannot play a game of ball or anything else for that matter, without spoiling it with unseemly dissension. The two towns are close together and there should be the most friendly feeling displayed when representatives of both towns are engaged in base ball contests. But the very opposite is true in most cases. The majority of the people attending base ball games go because of their love of the game. It is only the hoodlum element that enjoys a scrap."

Just for instance the Aitkin team will be in the city next Sunday for a game with the Elks' team and it is dollars to doughnuts that Dr. Watkins will make them look like nine spots, especially since they are feeling their oats over the last inglorious victory.

A familiar burden in every home, The burden in a "Bad Back." A lame, a weak or an aching back Tells you of kidney ills. Doan's Kidney Pills will cure you. Here is Brainerd's testimony to prove it.

Mrs. Mose Derocher, of 127 Seventh St. south, says: "Low down in the small part of my back there was a pain very distressing, by spells becoming much worse and causing me discomfort to say the least. My husband bought a box of Doan's Kidney Pills at the nearest drug store and I started taking them. The medicines which I had used failed to help me, but I can truthfully bear witness that Doan's Kidney Pills relieved my backache entirely and corrected a disorder of the kidneys which accompanied the backache."

Sold for 50 cents, at H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

SERVICES WERE VERY IMPRESSIVE

One Hundred and Thirty Children
Receive Their First Com-
munion at St. Francis

THE MUSIC WAS EXCELLENT.

And the Floral Decorations Were
the Most Profuse Ever
Seen in This City

The services at St. Francis Catholic church yesterday were most impressive, especially in the morning when one hundred and thirty children, seventy-five of them boys and fifty-five of them girls, received their first communion.

The church at the 9:30 o'clock service was crowded, and the music for the occasion was delightful. There was a full orchestra composed of Frank Ady and his two sons, Will and Clem Ady, and Prof. Graham. Millard's mass was sung by the choir and when the children marched into the church the orchestra played "The Holy City." Frank Ady played as an interlude the "Flower Song," and it was a pleasing rendition.

Just preceding the communion Rev. D. W. Lynch addressed the children, the boys first, who were seated on the north side of the church, and the girls afterward. He called the attention of the girls to the fact that it was an important epoch in their lives and hoped they would live and grow to be true and virtuous women. To the boys he said that there were two things which degrade the man to the level of the beast, intemperance and immorality. Shun these and they would get along in life better. He set up the path trod by the Saviour as an example for the boys. His remarks were very impressive and full of good thought.

The altar and sanctuary was completely covered with a profusion of flowers and it was the prettiest sight that has greeted the eyes for a long time.

HITCHCOCK APPROVES.

The Selections Made by Chief Pinchat of
the Forestry Bureau of the
Agricultural Department

Chief Pinchat of the forestry bureau of the agricultural department recently submitted to the secretary of the interior three lists of land in the Winnibigoshish, Chippewa and Leech lake reservations, to be applied to forestry purposes as required by the Morris act. One embraces 89,707 acres of pine land, and the second contains 14,752 of agricultural land, all within the areas recently reserved for sale on these reservations for the use of the forestry bureau.

The third list contains 86,339 acres, contiguous to the reserved area, selected under what is known as the "ten sections" provision of the Morris act. The forestry bureau still has the option of selecting about 100,000 acres in other parts of the ceded reservations for forestry purposes under the law.

Secretary Hitchcock has approved that selections and forwarded them to the land office for recording in the plat books.

Logs at Minneapolis.

The surveyor-general of the second district this week issued his report showing the number of feet of logs, turned to the Minneapolis mills during the months of April and May. The total number of logs scaled in this period were 863,539 aggregating 62,615,990 feet. Of these 799,626 logs or 57,351,310 feet were driven down the Mississippi to Minneapolis for sawing there and 63,913 logs or 15,264,680 feet came in by rail. These figures show a considerable falling off as compared with the scale for the same months of last year, which was 962,204 logs or 70,836,160 feet. As compared with 1901 the falling off is still more marked, the decrease for April and May approximating 38,000,000 feet. The present season so far has not been ideal for sawing. High water has been experienced too large a portion of the time.—Mississippi Lumberman.

IN MEMORY OF DEAD.

Yesterday Observed as Memorial Day by
the Members of the I. O. O. F. in
This City.

Yesterday the members of the I. O. O. F. in this city celebrated their annual memorial day, in the morning going to the graves of the deceased Oddfellows to decorate them with the twig of evergreen, and in the evening attending services in a body at the First Congregational church.

Rev. Richard Brown preached a most eloquent and interesting sermon, which was full of good food for the mind and soul. The services were made the more interesting by the presence of the Apollo male quartette, which rendered two selections in a very pleasing manner.

ATTORNEY BANNON TO LEAVE.

He Has Taken a Position with the Great
Northern as Contracting Freight
Agent at Duluth.

Attorney F. L. Bannon, of the firm of Heino & Bannon, will leave this city tomorrow for Duluth where he expects to make his home in the future. He has accepted a lucrative position with the Great Northern railway at Duluth as contracting freight agent.

While Mr. Bannon's friends will all be sorry to have him leave the city they will wish him well in his new field of action.

He has been in this city for about a year associated with J. R. Heino in the practice of law. During that time he has made many friends, and has built up a good practice, but the inducements held out by the Great Northern could not well be overlooked. On account of his past experience in the claim department of the St. Louis road his services are of particular value. He expects to some day not far distant become connected with the legal department of the Great Northern where he is sure to succeed. He is a young man of ability and all here will watch his future progress with keen interest.

The firm of Heino & Bannon has dissolved by mutual consent and arrangements will be made by Mr. Heino for the business pending here. Mr. Bannon has had several offers from the Great Northern during the past few months to go into the legal department of the road, but was never decided what to do until a few days ago when he wrote them and they replied that they would for the present place him at Duluth as general contracting freight agent until there would be another opening in the legal department which they expect will be very soon.

Chas. Jacobson, a lumberjack, was apprehended this morning at an early hour just as he was about to board a train, and his joblots was marched back to the place where he had been getting his feed for several months last past by the graciousness of the landlord. He owed the Antlers hotel management some \$30 for board and promised to settle yesterday when he got his check. He did not get his check cashed there, however, but went over to the Swanson hotel. Officers Hurley and Preston had been put on and they saw the man make for the train as soon as he got the check cashed. They nabbed him and he was glad to walk over to the Antlers and settle, which he did "so politely."

WILD AND WOOLLY TIMES AT FT. RIPLEY

A Miss Magnan While Out Berry-
ing is Shot at by Two Young
Desperadoes.

OTHER CRIMES COMMITTED.

A Man by the Name of Brecht
Held up Day or Two Ago and
Money Taken.

The residents of Fort Ripley are up in arms today over an attack made yesterday afternoon by two young desperadoes on Miss Magnan, the sixteen year old daughter of Mr. and Mrs. Archie Magnan, living not far from the village, and they are justly indignant in view of the fact that the same two young men, who skipped out last night, are thought to have been the perpetrators of several other little crimes during the last few days in the vicinity of that village.

Miss Magnan had gone out alone yesterday afternoon and was berrying about half a mile from the house. Two young men under a tree not far from where she was held her up, or rather attempted to do so, but she ran toward her home. Two shots were fired at her with a revolver and it was a close call, both bullets passing through her dress but not injuring her. She made her way to her home and fell prostrate from fright at the door of the house.

The same two young men, who have been hanging about Fort Ripley for several days, are thought to be the ones who held up a man by the name of Brecht a few days ago, relieving him of quantity of money, and who have also committed other like depredations.

The sheriffs of Morrison, Cass, Aitkin and Crow Wing are on the lookout for the young men and they will make an effort to capture them. They are thought to have headed this way and Sheriff Erickson is keeping an eye out.

Cheaper Panama Hats.

Juan B. Flores, a Peruvian manufacturer of panama hats, who was at the Hotel Baltimore in Kansas City the other day, says, according to the Kansas City Times, the panama hat will be just as popular this year, but that it will be less expensive than it was last summer. Mr. Flores says that he sold 7,000 dozen panama hats last season in the United States and expects to sell many more than that this year. He says the lateness of the spring season this year has hurt the panama hat business considerably.

MUSIC AND DRAMA.

"RESURRECTION"

Brainerd theatre-goers were given a treat on Saturday night when Melbourne MacDowell and Miss Florence Stone, supported by an excellent company, presented Tolstoi's "Resurrection." This piece is one of extreme intensity, an intensity which strains the listener to the utmost and keeps him in a sphere of emotional anxiety, a state of feeling which is enjoyed, for who is there that does not like at times to be taken out and lifted above the walks of ordinary life, and have pictured to them agony, despair and trouble in all its asperity and heart rending scenes, and especially so when it is realized that this piece was but a true story of the actual condition of an oppressed people; it gives the everyday troubles of man such an insignificant standing.

The role of Prince Nekludoff taken by Mr. MacDowell gives him ample scope to show his versatility as an actor, from the first act where he plays the part of a lover to the last scene when on the road to Siberia he in his princely power raises his hand to check the brutal assaults upon the convicts, he is full of power.

Miss Stone as Katusha Maslova was simply sublime. She went down from the elian heights of beauty and innocence to the depths of degradation, only to emerge again to the plane of a sweet Christian who was willing to devote the rest of her life to work among the convicts in Siberia, and all her work was finished. Space would not permit a lengthy review of this lady's work, but suffice it to say that the theatre goer, the one who attends for no other reason than to get good from a play, who could not find a feast in the work of Miss Stone on Saturday night might better look to other sources for enjoyment.

BASE BALL NUBS

The Aitkin Republican in referring to the part Dr. Watkins took in the game here with the Elks, sends out this: "wait that would flag a meat wagon, but then they have to do just so much scrapping up at Aitkin over base ball anyway: "Then the much advertised Doc. Watkins, he of the \$10,000 south-sided whip, was carefully rubbed down and led to the slab. And while we will admit right now that this same Watkins is without question a very fine ball player, he has habits on the diamond which would not be tolerated in the squared circle, and which would militate against the laying of many bouquets at his feet on a wide circuit. However, he is the idol of the Brainerd fan; anything he says or does goes, and under the circumstances he may be excused for resorting to some tactics which are not strictly according to Hoyle."

In another column is the following taken from the writeup of the game between the high school team of this city and the Juniors of that city:

"We understand the Brainerd game was characterized by considerable wrangling. It is unfortunate that the Brainerd and Aitkin teams cannot play a game of ball or anything else for that matter, without spoiling it with unseemly dissension. The two towns are close together and there should be the most friendly feeling displayed when representatives of both towns are engaged in base ball contests. But the very opposite is true in most cases. The majority of the people attending base ball games go because of their love of the game. It is only the hoodlum element that enjoys a scrap."

Just for instance the Aitkin team will be in the city next Sunday for a game with the Elks' team and it is dollars to doughnuts that Dr. Watkins will make them look like nine spots, especially since they are feeling their oats over the last inglorious victory.

LOVERS SEEK DEATH

TWO YOUNG PEOPLE OF GREEN.
WOOD, PA., TRY TO PERISH
TOGETHER.

GIRL DRINKS CARBOLIC ACID

SHE LINGERS IN AGONY, WHILE
THE MAN DIED FROM BUL-
LET WOUNDS.

Scranton, Pa., June 22.—A pair of young lovers, Ernest Schmie and Miss Jennie Brennan, both of Greenwood, were the participants in a double tragedy Sunday evening, which has resulted in the former's death and which will probably also prove fatal in the case of the girl. The two had loved each other devotedly for several months, but another woman from Schmie's old home interfered a week ago, and sought to hold him to an alleged engagement with her. This led the pair to seek refuge in death, and they apparently planned the affair with much deliberation. Miss Brennan purchased a bottle of carbollic acid Sunday morning and shortly afterwards both started out for a walk. They strayed to a secluded spot in the midst of a forest and spent the entire afternoon sitting side by side on a rock. They were seen by several other ramblers in the woods and this led to the search by the girl's cousin, Thomas Cavanaugh, and several of his friends.

When the party came in sight of the place, Miss Brennan put the bottle of acid to her lips and drained it. As she did so Schmie started to run with several of the party close on his heels. He drew a revolver and fired upon them three times and then stopping, turned the weapon to his heart and shot himself twice. He fell dead instantly. The girl suffered great agony and her physicians hold out scant hope for recovery.

PROMINENT MAN SUICIDES.

Sanford Northrup of St. Louis Puts a Bullet Into His Head.

St. Louis, June 22.—Sanford Northrup, until recently secretary and general manager of the American Refrigerator Transit company, committed suicide at the home of Claude Kennerly, vice president of the Republic Railway Appliance company, where he was staying. Northrup, who was about thirty-five years of age, leaves a widow and one child. He was a cousin of George Gould and stood high in local social and financial circles. About six weeks ago he resigned his position with the American Refrigerator Transit company. No cause for the deed is known.

Northrup shot himself in the back of the head with a revolver and death was almost instantaneous.

Claude Kennerly said that just ten minutes before the shooting occurred he had been talking with his friend, who appeared to be in the depths of melancholy. He heard the shot from the floor below and when he reached the chamber where it occurred Northrup lay on the floor, dead. Mr. Kennerly said he found no reason why his friend should have committed suicide, for his business prospects seemed good and his marital relations happy.

Mrs. Northrup and daughter Nancy, aged seven years, are now at Atlantic City, where they have been for several weeks.

It is learned that melancholia and an overworked nervous condition, brought on by many business affairs, are the only reasons known for the suicide.

MURDER IN FIRST DEGREE.

Owatonna (Minn.) Boys May Be Sentenced to Death.

Owatonna, Minn., June 22.—Guilty of murder in the first degree was the verdict returned by the jury against Charles and Henry Nelson for killing Harry H. Krier. The boys will be sentenced next Wednesday and it is thought the death penalty will be imposed, though, owing to their ages, they may get off with life imprisonment.

William A. Sutton was the state's star witness in the murder case. He testified that Charles Nelson fired the shot that killed Krier, Henry Nelson first chasing and holding the saloon-keeper while the shots, of which there were two, were fired. The Nelsons then forced Sutton to go through the murdered man's pockets and remove his money and valuables.

The father of the Nelson boys is said to be in danger of losing his mind over the case.

TRIED TO SHOOT ATTENDANT.

James Shevlin of Minneapolis Locked Up as an Insane Person.

Buffalo, N. Y., June 22.—James Shevlin, the son of a lumber merchant of Minneapolis, arrived in this city with an attendant Sunday on his way from the Danville sanitarium to his home.

While waiting for a train, Shevlin attempted to shoot the attendant. It is not known how he secured the revolver, but he held the spirit of Telemachus advised him to kill. Shevlin was locked up as an insane person. He will be sent home under guard.

KILLS A BARTENDER.

Michigan Hotelkeeper Defends His Wife and Child.

Jackson, Mich., June 22.—While defending his wife and child from threats of murder at a small place near here, August Braun, the village hotelkeeper, struck William McCrow, his former bartender, on the head with an iron bar, from the effects of which the latter died in a few minutes. It is said McCrow had been drinking and was seeking revenge from dismissal some time ago.

SUPERCEDES' MANNING.

Major General Egerton to Command Somaliland Expedition.

Simla, India, June 22.—Major General Charles Comyn Egerton, who has been in command of the Punjab frontier force since 1899, has been appointed to the command of the Somaliland expeditionary force which is operating against the Mad Mullahs superceding Brigadier General W. H. Manning.

General Manning, who took command of the British expedition in Somaliland last November after a reverse suffered by Colonel Swayne, has not proved successful in his campaign. Columns detached from the force have been badly mauled by the Mullah's followers, the most serious British defeat being the ambush of Colonel Plunket's flying detachment of 208 men, with two Maxim's, on April 17, when Colonel Plunket, all his officers and practically the entire force were wiped out. The last day's advice received in London, June 14, were to the effect that General Manning himself was surrounded and unable to assist Colonel Kobbie, whose column was in a serious position at Calladaya and on half rations.

IMPORTANT MATTERS.

A. O. U. W. Convention Takes Action on Readjustment of Rates.

St. Paul, June 22.—Two extremely important matters were settled Saturday at the session of the Ancient Order of United Workmen—the place of meeting next year was decided upon Chattanooga, Tenn., being selected, and the general plan of the readjustment of rates was accepted. This latter action was taken to enable the order to meet the deficiency in the national guaranty fund. To the laws committee was referred the work of arranging an increase in the death benefit assessments beginning with the age of twenty-four and remaining stationary till the age of fifty-five is attained. At that age a very heavy increase is advocated, but with no change in the rates between the ages of eighteen and twenty-four.

The Kansas, Illinois and West Virginia contingent, which advocated biennial instead of annual sessions, was voted down—429 to 139.

MEN'S FASHIONABLE BELTS

Correct Styles to Be Worn With Negligee Costumes.

The approved belt for masculine wear this summer with negligee suits will be narrow, varying from three-quarters of an inch to an inch and a half. The inch to an inch and a quarter widths promise to be the most used.

Various kinds of leather, seal, walrus, calf, harness and pigskin, will be used. Patent leather belts will be conspicuous by their absence. The buckles will be of nickel—to start with the least expensive—silver, gilt, gun metal and gold. The latter will be "the" thing if you can afford it; not every man can. If not of gold the next best thing is a buckle of sterling silver gilded. Plain substantial buckles will be in best taste; some will have square, others rounded, corners, but one and all will be simple in effect.

The black belt is noticeably prominent and comes in a variety of leathers—seal, walrus, calf and harness leather. Black stitching appears on the black belts and on the tan belts. The stitching is in self color.

The black belts will "go well" with the shirts in gray effects conspicuously set forth, and on the other hand, the law of harmony in color which prevails in all good dressing dictates the tan belt with a suit in the homespun mixtures or any brown effect.

The tan belt will again be fashionable in pigskin, although calf, walrus and various other leathers are also utilized for belts in shades varying from tan to russet and what may be called a brown. The white belt to be worn with the white outing suit will be of kid with white leather covered, gilt or gun metal buckle.

MRS. ROOSEVELT'S VETO.

Ordered Men Not to Disturb White House Shrubbery.

The experiments being made with the White House and its adornment have provoked the opposition of Mrs. Roosevelt, says a Washington special dispatch to the New York Times. Mrs. Roosevelt has given orders that hereafter no changes are to be made without her approval.

The final incident which caused this decision on the part of Mrs. Roosevelt came the other day. The representative of the nurserymen who had furnished the bay trees and boxwood bushes for the adornment of the terrace arrived with instructions from Architect McKim to remove all the bushes, seventy-two in number, and ship them back to Rutherford, N. J. The explanation given was that they were unsuitable.

The nurserymen's agent was accompanied by several helpers and a photographer. The latter proceeded to take some pictures of the terrace, showing the effect by the tall topped and pyramidal shaped trees. When this was accomplished the helpers were about to remove the boxwood bushes, as ordered by Mr. McKim, when word came to the foreman that Mrs. Roosevelt wished the terrace adornments to remain exactly as they were. The agent and his men accordingly withdrew.

Further changes will await Mrs. Roosevelt's pleasure. Whether the architect will convince her that the beauty of the terrace can be enhanced by the substitution of some other kind of plant for that which now adorns them remains to be seen. Mrs. Roosevelt seems to have given a plain indication, however, that she expects to be consulted before further changes are made in or about her home.

According to a reliable estimate, the cost of the bay trees and boxwood bushes sent to Washington and placed on the east and west terraces and the porte cochere at the north front of the mansion was between \$6,000 and \$7,000.

RINGS ON HER TOES.

Princess Hatzfeldt Creates a Sensation at a Ball in London.

All London was talking recently of the sensational dress worn by the Princess Hatzfeldt, adopted daughter of the late C. P. Huntington of California, at Mrs. Adair's ball, says the New York Evening Journal.

The princess impersonated Queen Esther. Her gown was a wonderful oriental creation, sparkling with precious stones. Her headdress was studded with enough stones to set off a crown, but most marvelous of all were her sandals. They were made so that the toes were free, an enormous ring blazing on each of them after the ancient fashion of the east.

The princess was the center of attraction from the very start of the ball, and her costume was declared the most sensational seen in years at a similar affair.

TILL SOIL BY MOONLIGHT.

Chinese Farmers Introduce New Methods in Pennsylvania.

Chinese farmers have been installed in Ross township, Pa., and the innovation is being watched with interest by those who have for years tilled the soil according to the ancient custom, says a Pittsburgh special dispatch to the New York World.

The Steenson farm, near Perrysville, one of the best in that district, has been secured, and the Chinamen are working hard to get the ground in condition. They do a great amount of work on moonlight nights.

Juan Claw, the financial agent of the company, claims that not less than 1,000 turkeys, twice that number of chickens, 500 geese and 250 pairs of ducks will have been raised and ready for the market at the holidays.

Pajamas in the Prize Ring.

Jack Johnson, the California negro heavy weight, knocked out Joe Butler at the Washington Sporting club, the other night, introducing a novelty without precedent in ring annals, says the Philadelphia North American. He wore pajamas. The black skinned Samson appeared in giddy pink bed garments that would have done credit to Beau Brummel. Naturally they made Butler think of sleep, and before ten minutes of the fray had passed the Philadelphian was stretched at full length on the canvas floor deep in the land of Nod. It was the pajamas that did the trick.

Wild Sport in Mayfair.

Quite the latest society game in London is said to be "bubbles." The players blow bubbles along a plank and over a miniature bridge. Bubble parties are to be the fashion this season.

Oh, no, we don't play pingpong now. The racket's reign is over. No more we mop our heated brow while crawling on the floor. Even the veriest champion's play No longer makes for fame. The net and balls are stowed away. We've found another game.

You take a pipe of common sort, Some soapbuds in a jar, Two chairs—one tall, the other short—A plank, and there you are. It's made a most enormous hit, And "bubbles" is its name. And if you try it you'll admit It's quite a thrilling game. It's seen at crushes, balls and fetes, Oh, would that I could pen The wild excitement it creates Among the upper ten. His nightly bridge the duke forsakes, The marquess does the same, And blows his bubble till it breaks. It's such a jolly game.

And if you seek the reason why they play with such a zest, The constant puffing, they reply, Is splendid for the chest, and it's quickly learned and so refined, And there's its highest claim! It's an overrated mind; That's why they like the game, and it's London Daily Chronicle.

ALMOST REAL WAR.

Summer Maneuvers to Closely Resemble Actual Conditions.

Portland, Me., is being put on a war footing in preparation for the joint army and navy maneuvers this summer which will center around Portland harbor, says a Washington dispatch to the Philadelphia Press. The joint maneuvers this year will be much more elaborate and comprehensive than the preceding ones and will represent as closely as possible the conditions of actual warfare. There will be no picnic connected with the realistic drill. It will be business all the way through, and the most beneficial results to the army and navy and the volunteers are anticipated.

Portland was selected as the scene of the struggle on account of the strategic value of its harbor in a war with any European power. The opposing nation, according to the war experts, probably would try to seize Portland and establish a base and throw an army across New England, following the plan of General Burgoyne in the Revolutionary war. The harbor is defended by Forts McKinley, Williams and Levitt and Fort Preble, a mortar battery. There are four entrances to the harbor, the main channel being between Forts Levitt and Williams. The number of entrances will give the coast artillery a large area to defend.

Rear Admiral Coghlan, now in command of the Caribbean squadron, probably will command the attacking fleet, and Rear Admiral Barker will be assisted by Rear Admiral Sands, commanding the training squadron.

LOVERS SEEK DEATH

TWO YOUNG PEOPLE OF GREEN.

WOOD, PA., TRY TO PERISH

TOGETHER.

GIRL DRINKS CARBOLIC ACID

SHE LINGERS IN AGONY, WHILE

THE MAN DIED FROM BUL-

LET WOUNDS.

Scranton, Pa., June 22.—A pair of young lovers, Ernest Schmitt and Miss Jennie Brennan, both of Greenwood, were the participants in a double tragedy Sunday evening, which has resulted in the former's death and which will probably also prove fatal in the case of the girl. The two had loved each other devotedly for several months, but another woman from Schmitt's old home interfered a week ago, and sought to hold him to an alleged engagement with her. This led the pair to seek refuge in death, and they apparently planned the affair with much deliberation. Miss Brennan purchased a bottle of carbolic acid Sunday morning and shortly afterwards both started out for a walk. They strayed to a secluded spot in the midst of a forest and spent the entire afternoon sitting side by side on a rock. They were seen by several other ramblers in the woods and this led to the search by the girl's cousin, Thomas Cavanaugh, and several of his friends.

When the party came in sight of the place, Miss Brennan put the bottle of acid to her lips and drained it. As she did so Schmitt started to run with several of the party close on his heels. He drew a revolver and fired upon them three times and then stooped, turned the weapon to his heart and shot himself twice. He fell dead instantly. The girl suffered great agony and her physicians hold out scant hope for recovery.

PROMINENT MAN SUICIDES.

Sanford Northrup of St. Louis Puts a

Bullet Into His Head.

St. Louis, June 22.—Sanford Northrup, until recently secretary and general manager of the American Refrigerator Transit company, committed suicide at the home of Claude Kennerly, vice president of the Republic Railway Appliance company, where he was staying. Northrup, who was about thirty-five years of age, leaves a widow and one child. He was a cousin of George Gould and stood high in local social and financial circles. About six weeks ago he resigned his position with the American Refrigerator Transit company. No cause for the deed is known.

Northrup shot himself in the back of the head with a revolver and death was almost instantaneous.

Claude Kennerly said that just ten minutes before the shooting occurred he had been talking with his friend, who appeared to be in the depths of melancholy. He heard the shot from the floor below and when he reached the chamber where it occurred Northrup lay on the floor, dead. Mr. Kennerly said he knew of no reason why his friend should have committed suicide, for his business prospects seemed good and his marital relations happy.

Mrs. Northrup and daughter Nancy, aged seven years, are now at Atlantic City, where they have been for several weeks.

It is learned that melancholia and an overworked nervous condition, brought on by many business affairs, are the only reasons known for the suicide.

MURDER IN FIRST DEGREE.

Owatonna (Minn.) Boys May Be Sen-

tenced to Death.

Owatonna, Minn., June 22.—Guilty of murder in the first degree was the verdict returned by the jury against Charles and Henry Nelson for killing Harry H. Krier. The boys will be sentenced next Wednesday and it is thought the death penalty will be imposed, though, owing to their ages, they may get off with life imprisonment.

William A. Sutton was the state's star witness in the murder case. He testified that Charles Nelson fired the shot that killed Krier. Henry Nelson first chasing and holding the saloon-keeper while the shots, of which there were two, were fired. The Nelsons then forced Sutton to go through the murdered man's pockets and remove his money and valuables.

The father of the Nelson boys is said to be in danger of losing his mind over the case.

TRIED TO SHOOT ATTENDANT.

James Shevlin of Minneapolis Locked

Up as an Insane Person.

Buffalo, N. Y., June 22.—James Shevlin, the son of a lumber merchant of Minneapolis, arrived in this city with an attendant Sunday on his way from the Danvers sanitarium to his home.

While waiting for a train, Shevlin attempted to shoot the attendant. It is not known how he secured the revolver, but he said the spirit of Teverson advised him to kill. Shevlin was locked up as an insane person. He will be sent home under guard.

KILLS A BARTENDER.

Michigan Hotelkeeper Defends His

Wife and Child.

Jackson, Mich., June 22.—While defending his wife and child from threats of murder at a small place near here, August Braun, the village hotelkeeper, struck William McCrow, his former bank robber, on the head with an iron bar, from the effects of which the latter died in a few minutes. It is said McCrow had been drinking and was seeking revenge from dismissal some time ago.

SUPERCEDES' MANNING.

Major General Egerton to Command

Somali Expedition.

St. Paul, Indla, June 22.—Major General Charles Comyn Egerton, who has been in command of the Punjab frontier force since 1899, has been appointed to the command of the Somali land expeditionary force which is operating against the Mad Mullah succeeding Brigadier General W. H. Manning.

General Manning, who took command of the British expedition in Somali land last November after a reverse suffered by Colonel Swayne, has not proved successful in his campaign. Columns detached from the force have been badly mauled by the Mullah's followers, the most serious British defeat being the ambushing of Colonel Plunket's flying detachment of 208 men, with two Maxim guns, on April 17, when Colonel Plunket, all his officers and practically the entire force were wiped out. The last day's advances received in London, June 14, were to the effect that General Manning himself was surrounded and unable to assist Colonel Kobbie, whose column was in a serious position at Calladay and on half rations.

IMPORTANT MATTERS.

A. O. U. W. Convention Takes Action

on Readjustment of Rates.

St. Paul, June 22.—Two extremely important matters were settled Saturday at the session of the Ancient Order of United Workmen—the place of meeting next year was decided upon Chattanooga, Tenn., being selected, and the general plan of the readjustment of rates was accepted. This latter action was taken to enable the order to meet the deficiency in the national guaranty fund. To the laws committee was referred the work of arranging the following:

It was deemed advisable to inaugurate an increase in the death benefit assessments beginning with the age of twenty-four and remaining stationary till the age of fifty-five is attained. At that age a very heavy increase is advocated, but with no change in the rates between the ages of eighteen and twenty-four.

The Kansas, Illinois and West Virginia contingent, which advocated biennial instead of annual sessions, was voted down—429 to 139.

MEN'S FASHIONABLE BELTS

Correct Styles to Be Worn With

Negligee Costumes.

The approved belt for masculine wear this summer with negligee suits will be narrow, varying from three-quarters of an inch to an inch and a half. The inch to an inch and a quarter widths promise to be the most used.

Various kinds of leather, seal, walrus, calf, harness and pigskin, will be used. Patent leather belts will be conspicuous by their absence. The buckles will be of nickel—to start with the least expensive—silver, gilt, gun metal and gold. The latter will be "the" thing if you can afford it; not every man can. If not of gold the next best thing is a buckle of sterling silver gilt. Plain substantial buckles will be in best taste; some will have square, others rounded, corners, but one and all will be simple in effect.

The black belt is noticeably prominent and comes in a variety of leathers—seal, walrus, calf and harness leather. Black stitching appears on the black belts and on the tan belts. The stitching is in self color.

The black belts will "go well" with the shirts in gray effects conspicuously set forth, and, on the other hand, the new of harmony in color which prevails in all good dressing dictates the tan belt with a suit in the homespun mixtures or any brown effect.

The tan belt will again be fashionable in pigskin, although calf, walrus and various other leathers are also utilized for belts in shades varying from tan to russet and what may be called a brown. The white belt to be worn with the white outing suit will be of kid with white leather covered, gilt or gun metal buckle.

MRS. ROOSEVELT'S VETO.

Ordered Men Not to Disturb White

House Shrubbery.

The experiments being made with the White House and its adornment have provoked the opposition of Mrs. Roosevelt, says a Washington special dispatch to the New York Times. Mrs. Roosevelt has given orders that hereafter no changes are to be made without her approval.

The final incident which caused this decision on the part of Mrs. Roosevelt came the other day. The representative of the nurserymen who had furnished the bay trees and boxwood bushes for the adornment of the terrace arrived with instructions from Architect McKim to remove all the bushes, seventy-two in number, and ship them back to Rutherford, N. J. The explanation given was that they were unsuitable.

The nurserymen's agent was accompanied by several helpers and a photographer. The latter proceeded to take some pictures of the terraces, showing the effect by the ball topped and pyramidal shaped trees. When this was accomplished the helpers were about to remove the boxwood bushes, as ordered by Mr. McKim, when word came to the foreman that Mrs. Roosevelt wished the terrace adornments to remain exactly as they were. The agent and his men accordingly withdrew.

Further changes will await Mrs. Roosevelt's pleasure. Whether the architect will convince her that the beauty of the terrace can be enhanced by the substitution of some other kind of plant for that which now adorns them remains to be seen. Mrs. Roosevelt seems to have given a plain indication, however, that she expects to be consulted before further changes are made in or about her home.

According to a reliable estimate, the cost of the bay trees and boxwood bushes sent to Washington and placed on the east and west terraces and the porte cochere at the north front of the mansion was between \$6,000 and \$7,000.

RINGS ON HER TOES.

Princess Hatzfeldt Creates a Sensa-

tion at a Ball in London.

All London was talking recently of the sensational dress worn by the Princess Hatzfeldt, adopted daughter of the late C. P. Huntington of California, at Mrs. Adair's ball, says the New York Evening Journal.

The princess impersonated Queen Esther. Her gown was a wonderful oriental creation, sparkling with precious stones. Her headpiece was studded with enough stones to set off a crown, but most marvelous of all were her sandals. They were made so that the toes were free, an enormous ring blazing on each of them after the ancient fashion of the east.

The princess was the center of attraction from the very start of the ball, and her costume was declared the most sensational seen in years at a similar affair.

TILL SOIL BY MOONLIGHT.

Chinese Farmers Introduce New

Methods in Pennsylvania.

Chinese farmers have been installed in Ross township, Pa., and the innovation is being watched with interest by those who have for years tilled the soil according to the ancient custom, says a Pittsburgh special dispatch to the New York World.

The Steenson farm, near Perryville, one of the best in that district, has been secured, and the Chinamen are working hard to get the ground in condition. They do a great amount of work on moonlight nights.

Juan Claw, the financial agent of the company, claims that not less than 1,000 turkeys, twice that number of chickens, 500 geese and 250 pairs of ducks will have been raised and ready for the market at the holidays.

Pajamas in the Prize Ring.

Jack Johnson, the California negro heavy weight, knocked out Joe Butler at the Washington Sporting club the other night, introducing a novelty without precedent in ring annals, says the Philadelphia North American. He wore pajamas. The black skinned Samson appeared in giddy pink bed garments that would have done credit to a Beau Brummel. Naturally they made Butler think of sleep, and before ten minutes of the fray had passed the Philadelphian was stretched at full length on the canvas floor deep in the land of Nod. It was the pajamas that did the trick.

Wild Sport in Mayfair.

[Quite the latest society game in London is said to be "bubbles." The players blow bubbles along a plank and over a miniature bridge. Bubble parties are to be the fashion this season.]

Oh, no, we don't play pingpong now. The racket's reign is o'er. No more we mop our heated brow While crawling on the floor. Even the veriest champion's play No longer makes for fame. The net and balls are stowed away. We've found another game.

You take a pipe of common sort, Some soapuds in a jar. Two chairs—one tall, the other short—A plank laid there you are. It's made a most enormous hit, And bubbles is its name. And if you try it you'll admit It's quite a thrilling game.

At a buzz, at a crash, balls and fetes. Oh, would that I could pen The wild excitement it creates Among the upper ten! His nightly bridge the duke forsakes. The marquise does the same. And blows his bubble till it breaks. It's such a jolly game.

And if you seek the reason why They play with such a zest, The constant puffing, they reply, Is splendid for the chest! It's quickly learned and so refined, And (here's its highest claim) It doesn't overtax the mind: That's why they like it so. —London Daily Chronicle.
